

## 3.8 PETITION

P1

# PETITION

To: TRPA / Placer County

The "Martis Valley West" proposal by East West Partners and Sierra Pacific Industries has exposed the lack of any definitive standards by the Tahoe Regional Planning Agency or Placer County for the protection of the area's scenic forested ridgelines. The ridgelines in the Lake Tahoe area are one of its most outstandingly beautiful features and are a primary basis for its popularity and economic health. The ridgelines offer recreational opportunities, a chance to view wildlife and experience nature, and of course unparalleled views of Lake Tahoe and Martis Valley; they are also increasingly rare homes to and open-space corridors for wildlife.

Most towns that have any kind of scenic value protect their ridgelines. There are many more than can be mentioned here, but they include Nashville, Tennessee; Sun Valley, Idaho; Park City, Utah; Aspen, Colorado; and Santa Monica, California. If regulations banning ridgeline development exist in other areas, even those that don't have the outstandingly unique features of the Lake Tahoe area, why don't we?

The public has entrusted Placer County and the TRPA with protecting and preserving Tahoe's and Truckee's irreplaceable natural beauty and mountain environment. Vague and unenforceable references in regulations to "consider" ridgeline protections clearly aren't enough. By signing this petition, we are requesting that you institute clear and enforceable protections for the Tahoe area's ridgelines immediately and allow **NO DEVELOPMENT** atop our scenic treasure.

**Petition to TRPA/Placer County**  
**No date**

---

**P1-1**

The comment discusses ridgeline attributes and suggests they should be protected with regulations banning ridgeline development. The statement requests that Placer County and TRPA institute protections for the Tahoe area's ridgelines. The one-page petition is followed by a list of 350 petition signatories.

The comment does not directly address any specific aspect of the proposed the MVWPSP project, nor does it provide a comment on the content, analysis, or conclusions of the Draft EIR. See responses to comments IO18-42 and IO18-44 regarding ridgelines and the project's consistency with existing policies. Recommendations to local agencies to add new goals or policies to existing planning documents or to enact new regulations to preserve or protect specific resources is outside the purview of this EIR. However, as part of the Final EIR, the recommendations will be forwarded to the Placer County Planning Commission and Board of Supervisors.
